EXPERIENCE

Conscious Technologies - Software Engineer

Feb 2024- present

- Collaborating with cross-functional teams to deliver innovative software solutions across healthcare, education, and finance. Key Contributions
- Acted as a bridge between the development team and clients, ensuring precise requirement gathering and seamless communication.
- Took end-to-end responsibility for projects, from initial setup and development to final deployment.

Luminar Technolab - Full Stack Developer

Jul 2023 - Feb 2024

- Collaborated with cross-functional teams to gather project requirements and translate them into technical specifications.
- Participated in code reviews, debugging, and testing to enhance the overall quality of the software.
- Improved front-end application performance by at least 20%, ensuring optimal website speed and responsiveness.

PROJECTS

RxHomeTest – Home Testing Platform for US Users

- Tech Stack: [Vue.js], [Node.js], [PostgreSQL], [ShipEngine], [Stripe], [HL7], [PDFKit]
- Developed and maintained three core modules: Admin panel, Web portal, and QR-based tracking system.
- Integrated HL7-compliant lab result processing with security protocols, ensuring accurate and secure data exchange.

Freshmenu – Food Delivery Application

- Tech Stack: [React Native], [JavaScript], [Redux], [API Integration]
- Developed and maintained the UI for Android and iOS platforms using React Native, ensuring a consistent and responsive user experience.
- Created custom components and reusable UI elements to enhance design efficiency and maintainability.
- Worked on responsive layouts and adaptive design to support various screen sizes and resolutions.

Code For Fun – Educational Platform for a U.S.

- Tech Stack: [React.js], [Node.js], [Python], [Jest], [Firebase]
- Implemented 100+ Jest test cases to ensure reliability and accuracy of the platform's core features.

EdDeed & EdJobs – Educational Platform & Job Portal

- Tech Stack: [Vue.js], [Node.js], [PostgreSQL], [OpenAI (ChatGPT)]
- Developed and maintained EdDeed, an educational platform connecting schools, job seekers, and opportunities in the education sector.
- Built EdJobs, a job portal integrated with EdDeed, displaying job listings posted on the main platform.
- Integrated ChatGPT for resume parsing, enabling automatic extraction and pre-filling of personal details in user profiles.

EDUCATION

Mount Seena College of Arts & Science

BSC Computer Science; Standing arrears

Akalur, Palakkad, Kerala, India

June 2020 – March 2023
